DEPARTMENT OF FOOD SUPPLIES

No. 2674/42 73

Office of the Director of Food Supplies in Mysore, Bangalore, Dated 3rd November 1944.

To

The Secretary to Government of
His Highness the Maharaja of Mysore,
Development Department ( Supplies ),
Bangalore.

Sir,

I have the honour to state that under my instructions a programme of Sanitary and Pest Control work in godowns in Bangalore City has been drawn up by the Secretary, Foodgrains Storage and Preservation Committee in consultation with the Assistant Director of Food Supplies, a copy of which is enclosed herewith for your information. According to this programme the godowns in the City are grouped into six circles, each containing 5 to 8 godowns. It is proposed to employ two gangs each of four men, working under a Maistry for special sanitation work in these circles, consisting of (1) Cyanogassing rat-holes in and around godowns and (2) thorough cleaning of the godown premises and re-arrangment of bags to segregate good grains from infested stocks, where necessary. It is intended that each godown should be regularly and systematically taken up once a fortnight for this work by this special gang, under the supervision of a Sanitary Inspector posted from the Public Health Department. If the services of a Sanitary Inspector cannot be spared for this work, a special Revenue Inspector will be posted for this duty after giving him necessary training.

Regarding other items of Pest control work viz., (1) Spraying with pyrethrum extract in the interior of godowns and (2) Fumigation of infested stocks, it is proposed that these operations should be carried out regularly by the godown staff under the guidance of the Secretary, Foodgrains Storage and Preservation Committee. Spraying will be taken up as a regular, routine measure twice a week in every godown. Regarding fumigation, proper air-tight accommodation is found in ten godowns where this operation will be carried

out regularly every week. In other godowns, small lots of infested grains will be arranged to be treated, on the spot under tarpaulins. It is estimated that about 1500 bags will be fumigated in this manner every month. This quantity can be improved if better transport facilities can be arranged.

Regarding other aspects of pest control like admixture of paddy husk etc., with grains, large-scale trials with other fumigants, and the construction of bamboo storage bins, Polepalli Subbiah Chetty's godown being centrally situated, and having other facilities has been selected for these items of work. It is intended to extend these operations into other godowns gradually.

I request, therefore, that sanction of Government may be kindly obtained for employing 8 men on Rs. 15/- each per month and two -- Maistries on Rs. 25/- each per month ( with the usual rates of dearnes allowance) for sanitation work in godowns in Bangalore City. In view of the urgency and importance of systematic and regular cleaning of godowns, I have instructed the Secretary, Foodgrains Preservation Committee to appoint the required hands, immediately in anticipation of Government sanction, and I request that my action may be kindly approved.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Food Supplies.
